

Inter-Regional Coordination of Economic Transmission Project Development

Inter-Regional Coordination of Economic Transmission Project Development

- SIRPP document filed with the SIRPP Participating Transmission Owners Attachment K filings identified additional work needed in this area
- SIRPP July 10, 2008 stakeholder meeting approved setting up a subgroup to work on this
- Subgroup members:
 - Jay Caspary Southwest Power Pool (SPP)
 - Calvin Daniels Energy Consulting Group
 - Keith Daniel Georgia Transmission Corporation
 - Nina McLaurin Progress Energy

Inter-Regional Coordination of Economic Transmission Project Development

- Once an Economic Planning Study report has been finalized, multiple stakeholders may be interested in jointly participating in the project development.
- An Inter-Regional process addressing each such economic upgrade request will be developed that will formalize the process of determining if there is sufficient stakeholder interest to pursue economic project development and the coordination that will be required of the impacted Transmission Owners to support this process.

Inter-Regional Coordination of Economic Transmission Project Development - Process

- SIRPP Inter-Regional Economic Transmission Path (IRETP) evaluation(s) performed
- Stakeholders determine if sufficient interest in pursuing the implementation of the IRETP
- Stakeholders submit Transmission Service Requests, which establishes OATT queue rights
- Over/Under Subscription process undertaken to determine if IRETP is fully subscribed

Inter-Regional Coordination of Economic Transmission Project Development - Process

- Coordinated System Impact Studies performed
- Determine if adjustments need to be made for subscribers opting out
- Facilities Studies performed
- Determine if adjustments need to be made for subscribers opting out
- IRETP is built if it has full subscription
